ENFIELD'S STREETS: FOR PEOPLE NOT CARS

Green transport policy favours people not cars

For years, residents all over Enfield have suffered from noise, congestion and air pollution due to too much through traffic. **Enfield Green Party believes that streets are for people, not traffic**. The space has to be shared but on residential streets residents should come first. Across Enfield, we are campaigning for measures which cut traffic, reduce air pollution, and which make our streets safer, cleaner and greener. We support the use of innovative traffic calming measures, which stop streets becoming 'rat runs'. We favour low speed limits and 'Low Traffic Neighbourhoods' which create people-friendly streets for us all to enjoy living in.

Enfield Greens support new traffic reducing measures like those used in the borough of Waltham Forest, above (Photo: Paul Gasson)

Vote for Enfield Green Party in the May local elections and we will continue to campaign for the establishment of more liveable streets for all of Enfield. The measures we propose would benefit the whole of Enfield, setting an example of a transport policy that puts people first.

GREENS GUARANTEE TO DO THINGS DIFFERENTLY

Green activists monitoring air pollution across Enfield

One Green Councillor in the room changes the debate!

Across the country, Green councillors are making a difference to people's lives. For example, Green Party councillors in Kirklees convinced the council to invest in a £20m home insulation programme and helped residents to save money on heating bills. In Sheffield, Green councillors have been campaigning to protect the city's trees. Across Enfield, Green activists have been campaigning on a range of issues, including traffic congestion, air quality, green waste and more. Green Party councillors guarantee to tackle the things that need to be tackled. We guarantee to challenge the status quo, where the status quo isn't working, and to demand better of our elected councils. And Green councillors will listen to you, the community, taking your concerns, your needs and your ideas to heart. If you've got concerns with Enfield Council, let us know what you'd like the Green Party to do about it! contact@enfieldgreens.org.uk

LOCAL ELECTIONS ARE ON THURSDAY 3RD MAY. VOTE GREEN IN 2018!

SAFER STREETS FOR YOUNG PEOPLE

Protecting youth services that reduce knife crime

Increasing knife crime has been matched by sharp decreases in funding for youth services

Between 2012 and 2017, council funding for youth services has been cut by 60% in Enfield, decreasing by over £2 million. Enfield Greens would fight to reverse these cuts, ensuring more youth centres and youth services. We would tackle the causes and culture of knife crime, as has been done successfully in Scotland. Green GLA Member Sian Berry has already secured £45m from the London Mayor for youth services.

CAMPAIGNING FOR A CLEANER ENFIELD

Environment at the heart of Green policies

Enfield Green Party has been surveying residents to find out what you think of local services. We know litter, fly-tipping and waste collections are a priority. We will improve waste services to make it easier for people to recycle, particularly in flats and shared housing. We will introduce more recycling bins in public places and encourage local businesses to adopt greener waste strategies.

Enfield Greens are committed to improving waste collections and recycling across Enfield

VOTE GREEN IN MAY 2018

SUSTAINABLE HOMES

We are committed to building more council homes to the highest environmental standards.

PROTECTING YOUTH SERVICES

We will reverse cuts to youth services, ensuring more youth centres and vital services for children and young people.

AIR POLLUTION

We will extend the Ultra Low Emission Zone to include Enfield, to tackle the illegal levels of air pollution which currently affect the Borough.

LIVEABLE STREETS

We will introduce Low Traffic Neighbourhoods, promote more walking and cycling, and make sure 20mph limits are enforced.

WASTE & RECYCLING

We will improve public recycling facilities and work with local businesses to improve recycling rates and reduce fly-tipping.

GET IN TOUCH

If you have a comment or question about a local issue or if there is something that you would like the Green Party to challenge Enfield Council on, please contact us.

Here are the ways you can get in touch with our candidates, or follow news from the Enfield Green Party.

NEWS IN BRIEF

HOUSING SUCCESS: Green Party members of the London Authority have successfully campaigned to make regeneration fairer for residents. They have secured a guarantee that residents will get a binding vote on plans for housing estate regeneration, so residents are promised a say in regeneration plans.

AIR POLLUTION: The Green Party have been campaigning across London to tackle air pollution. We are demanding that the Mayor's new Ultra Low Emission Zone (ULEZ) for all vehicles is London-wide and brought in before 2020. Air pollution levels in Enfield often break safe limits.

HELP FOR REFUGEES: Enfield Green Party held a successful collection for warm clothes and footwear this winter, for refugees in Calais. Thank you to all our supporters who kindly donated.

VOTE GREEN ON MAY 3RD FOR A CLEAN, GREEN & HEALTHY ENFIELD
